Specifications

# High Dynamic Range (HDR)

- Extends the luminance range:

SDR	100 nits (Cd/m <sup>2</sup> )
Film	48
Digital Cinema (DCI) (laser projector)	108
HDR (CES16)	~1,000 to 1,800
Grading Suite	~4,000
Maximum Specified	10,000

- Immersive “real life” video
  - Deeper darks and shadows
  - Brighter speculars and highlights
- Creates the **WOW** effect, especially when compared to HD
- HDR needs to be implemented along with WCG to gain full benefit
